## MCI 60BMU Aloha Data

### Complex Applications

PrehKeyTec's programmability makes even the most complex application seem simple! Our unique design provides the operator the ability to drill down into the Aloha Data application with a single key stroke. This advanced programmability helps simplify operator training and enhances data input.

### Aggressive Environment

Our robust keyboards are designed to withstand "Heavy Fingers" and 30 million key strokes, a metal base plate allows our keyboard to remain rigid in the most demanding environments. Spills? Our keypads are rated IP54 against spills and dust.

The Aloha Data MCI 60BMU has a compact footprint in a matrix layout. Every key position is programmed specifically to interface with Aloha Data Systems software. This keyboard is a very intuitive, uncluttered user interface for both new and experienced cashiers.

This solution is ideal for high volume scanning operations. Our superior lifespan reduces replacement costs and downtime. PrehKeyTec is so confident of the quality and durability of our German engineering, that a three-year warranty is standard on every unit.

- Stuck keys - impossible
- Ugly equipment - gone
- Learning curves - shorter
- Counter space - increased
- Down lanes - rarely
- Store image - reinforced
- Cable management - simplified

# MCI 60BMU Aloha Data

MCI 60 with MSR and Customized Aloha key set  
Manufacturer's Part Number 90328-117/1800

## Features

- 60 programmable and relegendable key positions (6 x 10 keys)
- Small footprint
- Integrated options include:
  - Bi-directional 3 track MSR
  - Number pad
- Self detecting interface: USB and PS/2 (with included adaptor)
- Liquid Dust Resistant IP 54 rated
- OPOS, JavaPOS and WEPOS drivers
- Windows®, Linux, DOS and Mac compatible
- PrehKeyTec WinProgrammer software
- 3 Year Warranty
- Available Color: Black

## Integrated Options

3 Track MSR

22 Additional Keycaps
